

Age of Fear (Routledge Revivals): Power Versus Principle in the War on Terror

First published in 2004 in the immediate wake of the September 11 terrorist attacks, this is an accessible commentary intended to provoke thought and debate on the topic of terrorism. In a collection of challenging essays, questions consider the causes of terrorism and why post-modern terrorism is different. The essays are divided into three key sections, first investigating the civilizational roots and dimensions of contemporary terrorism, next examining the Bush administrations approach, and finally, considering the complex and changing relationship between fear and freedom. Written by a leading scholar in Middle East and Asian Studies, this comprehensive reissue will be of particular value to students of international relations and terrorism studies, as well as the more general reader with an interest in the global issues faced in the age of contemporary terrorism.
