

## Sessional papers Volume 24, no. 11

This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1891 Excerpt: ...and is to be used during the winter at the ferry crossing of the canal, at the upper extremity of He Ste. Therese. The Government building at St. Johns, occupied by the collector and engineers of the Eichelieu survey, has been repaired and painted/both inside and outside. The walls of all the locks were pointed with Portland cement. The slope walls were repaired and the canal bottom cleaned during the month of April. & The ditches, drains and discharges were cleaned and kept in good order. The telephone service has proved very efficient, and repairs to the line and instruments were made when required by the canal employes. The weeds on both sides of the canal were mowed twice during the season. Considerable repairs were made to the superstructure of Dredge No. 1. Two new white oak spuds were made and placed. The engine and machinery were thoroughly overhauled. The hull of the dredge and scows were caulked and painted, and everything put in first-class order 1890 93 Improvement Chargeable To Income. The work done on this canal during the lapsed fiscal year under the head of Income is sub-divided as follows:--Dredging. The dredge was employed during part of the season in deepening the harbour entrance of the canal at St. Johns, and widening the channel in the canal proper at different points. The material excavated has been utilized in raising the towpath from 12 to 18 inches, on a distance of four miles. Land slides which were obstructing the canal near St. Johns were removed and the material deposited behind the dry rubble wall which was erected at the foot of the embankment on the west side, so as to repair the public road, which had been considerably

damaged by said land slides. Four cuts 200 feet in length were made in the channel at He Ste. Thre...
