

The Personal Government of Charles I: A History of England from the Assassination of the Duke of Buckingham to the Declaration of the Judges on Ship-Money, Vol. 1 of 2 (Classic Reprint)

The two volumes now published will bring the reader to the threshold of the Puritan Evolution, as the demonstration in the streets of London at the execution of the sentence upon Prynne, Burton, and Bastwick, together with the almost simultaneous demonstration at Edinburgh upon the introduction of the new Prayer Book, may fairly be regarded as the starting points of the movement. The period of nine years here treated of is one in which many causes were at work to undermine the Eoyal authority, and an accurate knowledge of these less exciting times is therefore absolutely indispensable to the formation of a sober judgment on the more stirring events which followed. Hitherto no book has come into existence which has even professed to trace the gradual change which came over English feeling year by year ;even Eanke, who has poured a flood of hght on the foreign relations of the country, and who has elucidated its domestic afaire so far as he was able to do so by the light thrown on them by the despatches of foreign diplomatists, having left much room for further and more detailed enquiry.(Typographical errors above are due to OCR software and dont occur in the book.)About the Publisher Forgotten Books is a publisher of historical writings, such as: Philosophy, Classics, Science, Religion, History, Folklore and Mythology.Forgotten Books Classic Reprint Series utilizes the latest technology to regenerate facsimiles of historically important writings. Careful attention has been made to accurately preserve the original format of each page whilst digitally enhancing the aged text. Read books online for free at www.forgottenbooks.org
