

## Incantations: Columns and Other Graffiti

From the back of the book: Welcome to Incantations, a collection of personal narratives that offers a warm-hearted, tender look at an industrial city called Detroit. Most people see the city as an endless drone of factories and big businesses, but someone who grew up here -- someone like George Cantor -- might be able to present a different perspective. The memories and experiences of the author may even strike a familiar chord for you, especially if you are a Detroiter. Perhaps you can remember saying goodbye to your childhood neighborhood or to a building that held special memories for you. Perhaps you are familiar with the somewhat jumbled street patterns of the city and recall a time when you couldn't seem to find a particular place. Perhaps you look back with fondness upon your first trip to the baseball stadium. . . .
