

## Early Intervention: Supporting and strengthening families (Protecting Children and Young People)

Early investment in vulnerable families - both in terms of the timing of early support or at the onset of issues - is more effective and cheaper than specialist support, which is offered only once problems become complex. One of the best ways to keep children safe is to develop innovative ways of enhancing the quality of help received by families, to redesign services around childrens and families needs, and to provide early help through better inter-agency working. This book examines early intervention policies across the UK and the promising practice initiatives which have been designed to support vulnerable families. (Series: Protecting Children and Young People) [Subject: Sociology, Social Work, Childrens Studies, Family Studies]
