

At huske (Danish Edition)

At huske tager udgangspunkt i at lege med hukommelsen, i at undres over forstandens og kroppens forunderlige, og i mange situationer, selvst?ndige liv, som ikke altid husker at banke pa, hos vores overste lag af bevidsthed. Den handler om at have v?ret l?rling i 1960erne, om tiden, om personer, om moder med frie m?nd og g?ve kvinder - de geniale og de sk?ve af slagsen og mere til. Og om at have v?ret ung, og om at finde sin(e) plads(er) i tilv?relsen og i arbejdslivet. Den handler om at l?re, at opna viden, om det medfodte og det till?rte. Og kredser om, hvorvidt viden og kunnen er tvillinger, om kunnen i virkeligheden er udtryk for viden. Eller om kunnen i en eller anden udstr?kning er en overleveret egenskab i genomet, sa nogle har lettere ved at l?re end andre? Derimod handler bogen ikke om alt det man ikke kan, selv om man tror man ved, hvordan det kunne gores. Men den handler om familieband, traditioner, v?rdier og antiv?rdier. Om at prove at finde lykken, og undga det modsatte, og om at prove at se bag nogle af datidens og ogsa nutidens mantra via refleksioner, tankespring og tidsspring. Ja, og undres over, hvad livet er for en utrolig begivenhed.
