

Does Administration Amnesty Harm Our Efforts to Gain and Maintain Operational Control of the Border?

The last line of defense, as we work to control the integrity of the border, is interior enforcement, and this hearing is intended to examine the impact of the administrations recent decision to more leniently apply prosecutorial discretion and how it will affect the Border Patrols ability to gain and maintain operational control of the border. I am very concernedI know others are, as wellthat the message that this administration is sending will lead to strains on the Border Patrols resources as potential illegal immigrants may surge across the border, making it much more difficult for the Border Patrol.
