

## Secessionist Impulse: Alabama and Mississippi in 1860 (Library Alabama Classics)

This is an outline of the economic crisis in the South based on the declining yields, increasing class stratification and higher slave prices. It supplies data on the property holdings and occupations of the elected representatives and finds the secessionists to be young, probably lawyers who were both ambitious and confident. Because the economic dislocation of the 1850s made people receptive to a rhetoric that emphasized conspiratorial abolitionists and almost paranoid fear of blacks and strangers, the politicians were able to persuade their constituents that a real crisis did exist and that secession was the only remedy.
