

## The Unification of Germany, 1848-1871 (European Problems Studies)

During the twentieth century the nation that Bismarck united has menaced the stability of the European order in two world wars, and the German defeat in both conflicts has fundamentally altered power relationships in Europe and throughout the world. This collection of articles gives conflicting interpretations of the premise that the unification of Germany (1848-1871) was a turning point in European history.
