

## My Life Shattered

It is hard to classify this book. It is an autobiography, a travelogue, an adventure into the European and Moroccan culture, a historical look back to the 1960s, a first-hand witness of the Russian takeover of a small country, a mans struggle with his demons, a study of young love found and lost, and the authors vulnerable passion to become an accomplished writer. It is a touching, vivid and ultimately inspiring account of a young mans life unraveling, and the journey that put it back together.
